For all Your Electrical Needs  
**We'll call you back!***

***Just a few tips and reminders:***

**DON'T** leave holiday lights on while you're sleeping or away from home. If you tend to forget, use a timer.

**DO** put a smoke alarm in the same room as your candle displays or Christmas Tree.

**DON'T** plug extension cords together. And be sure not to overload the extension cord—OR the circuit!

**DO** consider switching to eco-friendly LED holiday lights: they run cooler and thus are safer, and you'll save on your electric bill, too.

***Happy (and SAFE) Holidays from all of us at Breton Electric***
